

Health Outreach Program

Parul university hosts Modern Medicine, Ayurved, Homoeopathy, Physiotherapy, Nursing, & Pharmacy disciplines on a single campus which is very rare in India. This creates an ecosystem where holistic healthcare is served with the utmost care and priority. Seven dedicated Teaching Hospitals of the university serves the community with affordable health-services. The students and faculties of Parul University regularly engage in community Health Outreach Programs. These healthscience institutes organizes variety of collaborative as well as stand-alone outreach activities in terms of Health Camps, Screening Camps, Awareness Programs, Blood Donations camps and others. The University hosts 14 other disciplines which also conducts various Health Outreach activities in nearby villages in collaboration with NSS, NCC, Sakshamthad Foundation – The Social Responsive Cell of the University and external agencies such as local Public Health Centre, Red Cross Society and others. The University has also adopted 50 Villages. The villagers are provided regular Health Camps and Awareness sessions on various cross-cutting issues such as Family Planning, STDs, PCOD, PCOS, and others.

- Health Outreach Programs by Modern Medicine:
- Health Outreach Programs by Ayurved treatments:

- Health Outreach Programs by Homoeopathy:**

Faculty of Homoeopathy at Parul University, Vadodara, has established a comprehensive and impactful community outreach programme that proactively bridges the gap between academic knowledge and public health needs. Recognizing homoeopathy's holistic and preventive-centric philosophy, the faculty extends its expertise beyond the campus to actively improve community health through a multi-pronged approach. This initiative includes structured student volunteering programmes where future practitioners engage directly with the local population, conducting health awareness camps and interactive sessions on crucial topics such as preventive hygiene practices, balanced nutrition, the benefits of family planning, and the importance of regular exercise and sports for all age groups. Furthermore, leveraging the principles of homoeopathy, the outreach specifically addresses geriatric care and "aging well," providing valuable guidance on managing chronic ailments and enhancing the quality of life for the elderly. These projects are not merely theoretical but are designed as practical interventions that empower individuals with the knowledge to make informed health decisions, thereby a culture of wellness and preventive self-care within the community. By deploying its

students and faculty as agents of change, the Faculty of Homoeopathy at Parul University demonstrably fulfils its social responsibility, contributing significantly to the broader institutional mission of promoting sustainable well-being and creating a tangible, positive impact on public health in its local context.

- **Health Outreach Programs by Physiotherapy:**

Physiotherapy is a health care field which is not only life-saving but also contributes to a person's mental, emotional, physical and social well-being. The Faculty of Physiotherapy is dedicated towards providing students with the effective skillsets and competencies which are required to develop and shape the physiological knowledge through human anatomy. As a faculty we are committed towards providing insightful knowledge which edifies the physical health and welfare of the patients. The students are taught the practical aspects of healing through the knowledge of various exercises and therapeutic methods which result in the well-being of the patients. As a way of developing the practical skills and knowledge of the students, the faculty is equipped with a multi-specialty teaching hospital which serves the purpose of imparting within the students the relevant practical skills and knowledge.

• Health Outreach Programs by Nursing:

Based on its foundational philosophy that nursing is a scientific practice dedicated to humanity, the Faculty of Nursing at Parul University, Vadodara, actively champions Sustainable Development Goal 3 (Good Health and Well-Being) through extensive outreach programmes and community-centric projects. Leveraging its robust academic framework and the immense practical resources of its multi-speciality teaching hospital, the faculty mobilizes its student community to become agents of health promotion. These targeted initiatives directly engage the local population on critical topics, transforming theoretical knowledge into actionable public health interventions. Student volunteers, under the expert guidance of faculty, lead projects focused on improving hygiene, nutrition, and family planning, while also advocating for preventive health through sports, exercise, and aging well. This symbiotic approach not only addresses immediate community health needs but also provides nursing students with invaluable, real-world experience, fostering a profound sense of social responsibility. By delivering these essential services, the Faculty of Nursing embodies its commitment to pushing forward the ideal of Universal Healthcare, ensuring that its impact extends far beyond the campus walls and directly contributes to building a healthier, more equitable society in line with the global targets of SDG 3.

• **Other Collaborative Outreach Program:**

Parul University has demonstrated a profound institutional commitment to community health through its collaborative outreach program with the Social Responsive Cell (SRC) / Sakshamthad Foundation, NSS & NCC. This multi-faceted initiative strategically targets the local Vadodara community with a comprehensive portfolio of programmes designed to holistically improve physical and mental wellness. The outreach encompasses critical health pillars including preventive hygiene practices, balanced nutrition awareness, the importance of family planning, and the lifelong benefits of regular sports and exercise, with tailored interventions promoting graceful aging. The synergistic partnership has successfully delivered a significant number of health camps, workshops, and awareness drives, directly engaging thousands of community members. By bridging the gap between the university and its surrounding population, the program has effectively disseminated vital health information, encouraged proactive wellness behaviours, and created a sustainable model for community engagement. The initiative stands as a powerful testament to Parul University's dedication to its social mandate, proving that its role extends beyond academia to being a pivotal force in building a healthier, more resilient, and well-informed society, directly contributing to the national and global targets of SDG 3.

શહેરની યુનિવર્સિટી દ્વારા વર્લ્ડ એલ્ડર એબ્યુઝિવ અવેરનેસ ડેની ઉજવણી

વ્યારા ગામમાં વિનામૂલ્યે પૌષ્ટિક આહાર પૂરો પાડશે

સંદેશ

શહેર નજીકની પાટલ યુનિ. દ્વારા આજે વર્લ્ડ એલ્ડર એબ્યુઝિવ અવેરનેસ ડેની ઉજવણી કરવામાં આવી હતી. યુનિ.ના સોશિયલ રિસ્પોન્સિવ સેલે તેના HUNF - મીલ્સ ઓન બ્લીલ્સ પહેલને વાઘોડિયાના વ્યારા ગામ સુધી વિસ્તારી હતી.

પાટલ યુનિ.ના સોશિયલ રિસ્પોન્સિવ સેલ દ્વારા વર્લ્ડ એલ્ડર એબ્યુઝિવ અવેરનેસ ડેની ઉજવણી કરાઈ હતી. સોશિયલ રિસ્પોન્સિવ સેલે વ્યારા ગામમાં તેની ક્લેગશીપ પહેલ એયુએનએફ - મીલ્સ ઓન બ્લીલ્સ અંતર્ગત જરૂરિયાતમંદ વરિષ્ઠ નાગરિકો અને વૃદ્ધોને વિનામૂલ્યે સ્વાદિષ્ટ અને પૌષ્ટિક આહાર પૂરો પાડશે. આ સંદર્ભે પાટલ યુનિ. વાઈસ પ્રેસિડેન્ટ ડૉ. ગિતિકા પટેલે જણાવ્યું

યુનિ.ના સોશિયલ રિસ્પોન્સિવ સેલ દ્વારા વર્લ્ડ એલ્ડર એબ્યુઝિવ અવેરનેસ ડેની ઉજવણી કરાઈ હતી.

હવે વર્લ્ડ એલ્ડર એબ્યુઝિવ અવેરનેસ ડે નિમિત્તે સોશિયલ રિસ્પોન્સિવ સેલે તેના એયુએનએફ પ્રોજેક્ટ હેઠળ વાઘોડિયાના વ્યારા ગામને પણ આવરી લીધું છે. અત્યારસુધી આ પ્રોજેક્ટ માંબલી, લીમડા, પાટિયાપુરા અને માહેલીમાં કાર્યરત હતો. હવે વ્યારા ગામના જરૂરિયાતમંદ વૃદ્ધોનું નંદુરસ્ત

જીવન સુનિશ્ચિત કરવામાં મદદરૂપ બનીશું. અમે વ્યારા ગામના વ્યક્તિઓ અને પરિવારોના જીવન ઉપર સકારાત્મક અસરો પેદા કરવા માટે સમય બનીશું. ઉલ્લેખનીય છે કે, અત્યાર સુધી જરૂરી વધુ જરૂરિયાતમંદ વૃદ્ધોને ૧૮,૦૮૦થી વધુ તાજું ભોજન પુરું પાડ્યું છે.

- **Health Outreach Programs by other Disciplines of the university:**

Parul University demonstrates a profound institutional commitment to Sustainable Development Goal 3 (Good Health and Well-Being) through a multidisciplinary and impactful portfolio of health outreach programs that actively engage its diverse faculties in serving the local community. The Faculty of Engineering and Technology has been instrumental in driving critical initiatives, including hygiene and sanitation awareness under the Swachh Bharat Abhiyan, life-saving CPR training in collaboration with Zydus Hospital, and environmental sustainability projects that directly impact public health. Concurrently, the Faculty of Hotel Management leverages its unique expertise to conduct essential Hygiene Awareness camps and life-saving Blood Donation drives, translating academic specialization into community wellness. The Faculty of Management extends this outreach through practical interventions like Medical Check-up Camps in local schools, while the Faculty of Social Work addresses sensitive yet crucial health dimensions through targeted talks on Menstrual Health and Hygiene, Women Empowerment programs, and World HIV/AIDS Day celebrations, fostering a more informed and healthy society. Further broadening the scope, the College of Agriculture contributes to both health and economic well-being by organizing Farmer Awareness Programs and educating on sustainable practices like nutritional Mushroom Production using agricultural waste. This collective, cross-disciplinary effort, encompassing everything from nutrition and

family planning to disease prevention and mental well-being, underscores Parul University's role as a catalyst for comprehensive community health, seamlessly integrating student volunteering with academic knowledge to create a tangible, positive impact on the well-being of Vadodara and its surrounding regions.

- **Health Outreach covered at Villages**

Sakshamthad Foundation – Overview

Sakshamthad Foundation, a social responsive initiative of Parul University, dedicated to instigating initiatives that contribute to social development. The focus areas encompass poverty eradication, universal primary education, child development, scholarship programs, gender equality, mother and child health, rehabilitation of differently-abled individuals, preventive health and hygiene, environmental preservation, livelihood and skill development. The target groups for these endeavours include senior citizens, women, children, orphans, migrants, youth, differently-abled individuals, and marginalized farmers.

We are actively working in 42 villages of Waghodia taluka focusing on different developmental areas to bring sustainable change at the grassroots level. Our foundation is deeply committed to addressing various societal challenges through focused endeavours aimed at poverty eradication, universal primary education, child development, scholarship programs, gender equality, healthcare, environmental preservation, and livelihood development. We target marginalized groups including senior citizens, women, children, orphans, migrants, youth, and differently-abled individuals.

Detail Profile of Villages

1. **Limda Village**, located in the Waghodia taluka of the Vadodara district in Gujarat, is a growing hub known for its mix of education, industry, and rural life. Situated approximately 10-15 km from Vadodara city with good connectivity via State Highway 158, the village covers an area of around 874.58 hectares. According to the 2011 Census, Limda has a total population of 2,608 individuals residing in 574 families, with a healthy sex ratio of 977 females per 1,000 males and a high literacy rate of 78.9%. The local economy is driven by a combination of agriculture and proximity to the Waghodia industrial area, while the village has emerged as a significant educational hub due to the presence of institutions like Parul University nearby. Essential services such as a post office, local administration via a Sarpanch, healthcare facilities and good transport links are well-established in the area.
2. **Madheli Village** is a rural locality and gram panchayat situated in the Waghodia taluka of the Vadodara district in Gujarat, located approximately 8 km from Waghodia and 18 km from Vadodara city, with a PIN code of 391760. Spanning about 877.34 hectares, the village had a population of 2,057 in 2011, a sex ratio of 939 females per 1,000 males, and a high literacy rate of 88.9%, with the local economy rooted in agriculture. Government facilities within the village include the well-equipped *Madheli* primary school (established in 1968) providing mid-day meals and Anganwadi centers for early childhood development. Basic healthcare is provided by a local Health Sub-Center, while residents rely on the main 24/7 Primary Health Centre (PHC) located in the nearby Waghodia town for comprehensive medical services. The village benefits from good road connectivity, public transport, and access to all taluka-level administrative services in Waghodia town.

3. **Tavra Village** located in the Waghodia taluka of the Vadodara district in Gujarat, is a rural area that functions as its own Gram Panchayat with a PIN code of 391760. It covers approximately 461.95 hectares and, as per the 2011 Census, has a total population of 1,427 across 290 families, noted for its balanced sex ratio (999 females per 1,000 males) and a strong literacy rate of around 78%. The local economy is mainly agricultural, with a majority of the workforce engaged as cultivators or agricultural labourers. The village is equipped with essential government facilities, including a government primary school established in 1954, which has functional classrooms, drinking water (hand pumps), separate toilets for boys and girls, a playground, a library with 340 books, and provides mid-day meals (though prepared off-site). Healthcare needs are addressed by a Health Sub-Center within the village, while the main 24/7 Primary Health Centre (PHC) is located in the nearby Waghodia town. Anganwadi centers also operate in the area, offering early childhood development and health services. Connectivity is maintained through public bus services, with a railway station within 5 km, and residents can access various administrative services at the Waghodia Taluka Seva Sadan.
4. **Patiyapura** is a rural village in the Waghodia Taluka of the Vadodara district, Gujarat, with a total of approximately 254 households and a population of 1,144 residents, consisting of 603 males and 541 females, as per the 2011 Census data. The village has an average sex ratio of 897 females per 1,000 males and a literacy rate of 88.62%. Basic local facilities include a government-managed Patiyapura Primary School which offers classes from grades 1 to 5, anganwadi centers providing early childhood education and basic health services, and access to drinking water via hand pumps. The village is connected by all-weather roads, relying on the nearby Waghodia town for more extensive amenities like banks, ATMs, and hospitals.
5. **Rustampura** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,460 residents living in approximately 288 households. The population is composed of 768 males and 692 females, resulting in an average sex ratio of 901 females per 1,000 males. The village has access to essential local facilities, including the government-operated Rustampura Primary School which provides education up to grade 8 and is equipped with functional hand pumps for drinking water. Anganwadi centers are also present, offering basic health services and pre-school education for young children and mothers. The community is connected by all-weather roads, relying on the nearby town of Waghodia, situated 16 km away, for more significant economic activities, banking, and advanced medical needs.
6. **Ropa** is a rural village in the Waghodia Taluka of the Vadodara district, Gujarat, with a total population of 633 residents living in approximately 127 households. The population comprises 327 males and 306 females, and the community maintains a literacy rate of about 77.09%. The primary livelihood for residents is agriculture, with major crops grown in the region including cotton, maize, sugarcane, paddy, wheat, and various fruits and vegetables like bananas and brinjals, suggesting similar agricultural activities and sources of income for Ropa villagers. The village is equipped with essential local facilities such as a government primary school, anganwadi centers that provide basic health and early education services, hand pumps for drinking water, and public bus service for transport connectivity.

7. **Mastupura** is a rural village in the Waghodia Taluka of the Vadodara district with a total population of 487 residents living in approximately 131 households. The population is composed of 264 males and 223 females, and the village has a high literacy rate of 95.6%. The primary livelihood of the community is agriculture, with major regional crops including cotton, maize, sugarcane, and paddy, along with horticultural crops like bananas and mangoes. The village has essential facilities, including a government school, anganwadi centers providing basic health and early education services. While local amenities cater to immediate needs, residents rely on the nearby Waghodia town for more extensive services such as banking, advanced medical care, and diverse educational institutions.
8. **Kamlapura** is a village in the Waghodia taluka of the Vadodara district with a total population of 835 residents living in approximately 165 households, composed of 439 males and 396 females, with an average sex ratio of 902 females per 1,000 males and a literacy rate of 72.81%. The local livelihood is predominantly entered on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy. The village is equipped with essential facilities, including a government primary school for education, an anganwadi center providing basic health services and pre-school education, and is accessible by public bus services. For more extensive amenities such as banking, ATMs, and advanced medical facilities, residents rely on the nearby town of Waghodia
9. **Timbi** is a rural village in the Waghodia Taluka of the Vadodara district with a total population of 685 residents living in approximately 148 households, composed of 351 males and 334 females. The village is located near Hanumanpura, which has a population of around 504 people in 121 households. The primary livelihood for residents in the broader region is agriculture, focusing on cash crops like cotton, maize, sugarcane, and paddy, with access to irrigation from sources like tube-wells and canals. Timbi is equipped with essential local facilities such as a government primary school, an anganwadi center providing basic health and early education services, and benefits from public bus connectivity, with the nearest town of Waghodia for more extensive amenities like banking and advanced healthcare.
10. **Hanumanpura** is a rural village in the Waghodia Taluka of the Vadodara district with a total population of approximately 504 residents living in about 121 households, consisting of 255 males and 249 females. The primary livelihood is largely agriculture-based, consistent with regional patterns for crops such as cotton, maize, sugarcane, and paddy, though the village is also close to the developing Waghodia industrial belt, offering alternative employment opportunities. The community is equipped with essential local facilities including a government-run Hanumanpura Primary School, which serves students up to grade 5, anganwadi centers that provide basic health and early education services, functional tap water supply, and playground facilities. The village benefits from good road connectivity and relies on nearby urban centers for more extensive amenities like banks, ATMs, and advanced medical care.
11. **Vyara** is a large village in the Waghodia Taluka of the Vadodara district with a total population of 4,994 residents living in approximately 1,097 households. The population comprises 2,541 males and 2,453 females, and the community has a literacy

rate of about 64.02%. The local livelihood is primarily agriculture-based, with significant regional crops including cotton, maize, sugarcane, paddy, and various fruits and vegetables. The village is well-equipped with essential facilities, including a government-run Vyara Primary Group School that offers classes up to grade 8 with functional tap water and toilet facilities, and anganwadi centers that provide basic health and early education services. Vyara also has a gram panchayat, electricity connection, and good road connectivity, being situated only 7 km from the sub-district headquarters of Waghodia town for more extensive amenities like banks and hospitals.

12. **Amodar** is a village in the Waghodia taluka of the Vadodara district with a total population of 2,333 residents living in approximately 484 households. The population is comprised of 1,189 males and 1,144 females, and the village has a literacy rate of 79.7%. The local livelihood is predominantly agriculture-based, consistent with regional patterns for crops such as cotton, maize, sugarcane, and paddy. The community is equipped with essential local facilities, including a government primary school for education, an anganwadi center providing basic health and early education services, and access to drinking water through sources like hand pumps and bore wells. For more extensive amenities such as banking, ATMs, and advanced medical care, residents rely on the nearby town of Waghodia, located approximately 11 km away, with Amodar being accessible via public bus services.
13. **Waghodiya** village is a large and well-established village in the Waghodia Taluka of the Vadodara district with a total population of 4,994 residents living in approximately 1,097 households. The population is comprised of 2,541 males and 2,453 females, and the local livelihood is deeply connected to agriculture, with key crops including cotton, maize, sugarcane, paddy, and various fruits, benefiting from local irrigation sources. The village is equipped with essential facilities, including a government-run Vyara Primary Group School, anganwadi centers that provide basic health and early education services, functional tap water supply, electricity, and good road connectivity. It is located just 7 km from the sub-district headquarters and is close to the Waghodia industrial belt, offering diverse employment opportunities.
14. **Sardol** is a village in the Waghodia taluka of the Vadodara district with a total population of approximately 1,928 residents living in around 378 households, consisting of 980 males and 948 females. The local livelihood is primarily agriculture-based, consistent with regional practices focused on crops such as cotton, maize, sugarcane, and paddy, though the proximity to the Vadodara industrial "golden corridor" also suggests some residents may be employed in the manufacturing and industrial sectors. The community has basic facilities including anganwadi centers which provide essential health and early education services, public bus access for transportation, and relies on nearby urban centers like Waghodia town for more extensive amenities such as government schools, banking, and advanced medical care.
15. **Vasvel** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,257 residents living in approximately 229 households. The population is comprised of 640 males and 617 females, and the village maintains a high literacy rate of approximately 88.75%. The local livelihood is predominantly based on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, though its location near the broader industrial zone provides additional employment options. The community is equipped with essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, and access to a public bus service, with residents relying

on nearby Waghodia town for more extensive amenities such as banking, ATMs, and advanced medical care.

16. **Kachota** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,416 residents living in approximately 286 households. The population is comprised of 727 males and 689 females, and the village maintains a literacy rate of approximately 78.43%. The local livelihood is predominantly based on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, with additional employment opportunities available due to the proximity of the Waghodia industrial area. The community is equipped with essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, and functional tap water supply, with residents relying on the nearby Waghodia town for more extensive amenities such as banking, ATMs, and advanced medical care.
17. **Paldi** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,260 residents living in approximately 249 households, consisting of 650 males and 610 females. The local livelihood is primarily based on agriculture, with many residents working as cultivators or agricultural labourers in the region which grows major crops like cotton, maize, sugarcane, and paddy, with access to irrigation facilities like tube wells and canals. The community has basic facilities including a gram panchayat, public bus services, and anganwadi centers that provide essential health and early education services to children and mothers, though residents must travel approximately 15 km to the nearby town of Halol for major economic activities, government schools, and advanced medical care.
18. **Pilod** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,257 residents living in approximately 249 households. The population is comprised of 649 males and 608 females, and the village maintains a high literacy rate of approximately 88.08%. The local livelihood is predominantly agriculture-based, consistent with regional patterns for crops such as cotton, maize, sugarcane, and paddy, with additional employment opportunities due to the proximity of the Waghodia industrial belt. The community is equipped with essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, and access to a public bus service, with residents relying on the nearby Waghodia town for more extensive amenities such as banking, ATMs, and advanced medical care.
19. **Pipadiya** is a village in the Waghodia taluka of the Vadodara district with a total population of 933 residents living in approximately 220 households. The population is comprised of 485 males and 448 females, and the community has a literacy rate of 78.5%. The local livelihood is predominantly based on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, with additional employment opportunities potentially available in the nearby Waghodia industrial area. The village is equipped with essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, and access to a public bus service, with residents relying on the nearby Waghodia town for more extensive amenities such as banking, ATMs, and advanced medical care.

20. **Falod** is a village in the Waghodia taluka of the Vadodara district, Gujarat, with a total population of 1,440 residents living in approximately 285 households, consisting of 745 males and 695 females. The local livelihood is primarily rooted in agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, though the village's proximity to the Waghodia industrial area also offers non-agricultural employment opportunities. The community has access to essential local facilities including a government-run Falod Primary School, anganwadi centers that provide basic health and early education services, and public bus services for connectivity, with residents relying on the nearby town of Waghodia for more extensive amenities like banks, ATMs, and advanced medical care.
21. **Vejalpur** is a large village in the Waghodia Taluka of the Vadodara district with a total population of 7,707 residents living in approximately 1,659 households, comprising 4,013 males and 3,694 females. The primary livelihood for the community is a mix of agriculture growing regional crops like cotton, maize, sugarcane, and paddy and engagement with the nearby industrial belt, offering diverse employment opportunities. The village is well-equipped with essential facilities including a government school (Vejalpur Primary School provides education up to grade 8), anganwadi centers providing basic health and early education services, and functional tap water supply, with residents relying on the nearby Waghodia town for more extensive amenities like banks, ATMs, and advanced medical care.
22. **Madodhar** is a village in the Waghodia taluka of the Vadodara district with a total population of 1,440 residents living in approximately 296 households, consisting of 745 males and 695 females. The local livelihood is primarily rooted in agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, though the village's proximity to the Waghodia industrial area also offers non-agricultural employment opportunities. The community has access to essential local facilities including a government school, anganwadi centers that provide basic health and early education services, and public bus services for connectivity, with residents relying on the nearby town of Waghodia for more extensive amenities like banks, ATMs, and advanced medical care.
23. **Goraj** is a village in the Waghodia taluka of the Vadodara district with a total population of 4,561 residents living in approximately 943 households, comprising 2,339 males and 2,222 females. The primary livelihood for the community is a mix of agriculture growing regional crops like cotton, maize, sugarcane, and paddy and engagement with the nearby industrial belt, offering diverse employment opportunities. The village is well-equipped with essential facilities including a government school, anganwadi centers providing basic health and early education services, functional tap water supply, and good public bus connectivity, with residents relying on the nearby Waghodia town for more extensive amenities like banks, ATMs, and advanced medical care.
24. **Gugaliyapura** is a village in the Waghodia taluka of the Vadodara district with a total population of 899 residents living in approximately 186 households. The population is comprised of 455 males and 444 females, and the village maintains a high literacy rate.

of approximately 88.75%. The local livelihood is predominantly based on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, with additional employment opportunities due to the proximity of the Waghodia industrial area. The community is equipped with essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, and access to a public bus service, with residents relying on the nearby Waghodia town for more extensive amenities such as banking, ATMs, and advanced medical care.

25. **Khatmba** is a village in the Vadodara taluka of the Vadodara district with a total population of 920 residents living in approximately 190 households, as per the 2011 Census data. The population is comprised of 427 males and 493 females, with the community maintaining a literacy rate of around 71.52%. The local livelihood is primarily rooted in agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, though its location near the broader industrial and urban zones of Vadodara also offers diverse employment opportunities in manufacturing and services. The community has essential local facilities including a government primary school, anganwadi centers that provide basic health and early education services, public bus services, and functional tap water supply, with residents relying on nearby Vadodara city (10 km away) for more extensive amenities like banks, ATMs, and advanced medical care.
26. **Ankhol** is a village in the Waghodia taluka of the Vadodara district with a total population of 2,343 residents living in approximately 476 households. The population is comprised of 1,202 males and 1,141 females, and the village maintains a literacy rate of approximately 78.43%. The local livelihood is predominantly based on agriculture, typical of the region which grows crops like cotton, maize, sugarcane, and paddy, with additional employment opportunities available due to the proximity of the Waghodia industrial area.
